

Quality Assurance in Radiation Medicine for Sustainable Health Care

Refresher Courses | 13 - 17 November 2023 | 08:00 am - 09:00 am EST

FREE REGISTRATION

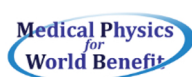

The Jamaican Association for Physics in Medicine will be hosting its first conference under the title “Quality Assurance in Radiation Medicine for Sustainable Health-care”. The conference covering radiotherapy, diagnostic Diagnostic Radiology, nuclear medicine, and radiation safety will target various technical groups, policymakers, and administrators who engage in the use of radiation for diagnostic and therapeutic purposes within the English-speaking Caribbean. The primary aim is to provide attendees with the practical information necessary to deliver radiation medicine in limited resource conditions while maintaining the required quality standards.

To precede this, this inaugural event will offer free refresher courses to all interested individuals in diagnostic radiology and radiotherapy streams.

Topics Covered

- * Patient Positioning and Iso-Centre Placement
- * QA assurance in Digital Mammography
- * Radiotherapy Breast Planning
- * Analogue to Digital Exposure Factors Adjustments
- * Gamma Evaluation for Patient Specific QA
- * Remote and Automated QC in Radiology
- * QA HDR Brachytherapy
- * The Art of CT Imaging

Partners

Local Organizers

Mr. Sanchez Palmer
Mr. Barrington Brevitt
